all your daily communications

WHAT DIFFERENTIATES ESNATECH'S UNIFIED COMMUNICATIONS TECHNOLOGY?

1. A SINGLE SOURCE SOLUTION for Enterprise Mobility, Unified messaging, CTI, and Rich Presence integrated into one platform.
2. INTEROPERABILITY with click-to-dial and screen pops in any business application such as Microsoft® Outlook®, Goldmine, salesforce.com etc.
3. SEAMLESS INTEGRATION into your existing data and telephony infrastructure to enable easy deployment unified communications and realize both total cost of ownership and return on investment immediately after deploying the solution.
4. PROVISION ABLE UNIFIED COMMUNICATIONS technology across the workforce. Every user in your organization is different and requires different features and functionality to improve the effectiveness and efficiency of their daily communications. Esnatech UC platforms enable the ability to pick and choose what features and services each user has access too based on their role and job function.
