

Esnatech enables businesses to integrate **voice**, **mobility** and **presence** with the Cloud and Google® Apps.

Office-LinX™ Cloud Connect Edition for Cisco Unity Connection

Extend the power of Cisco Unity Connection to Google Apps, VMware Zimbra, Lotus Notes and Novell Groupwise

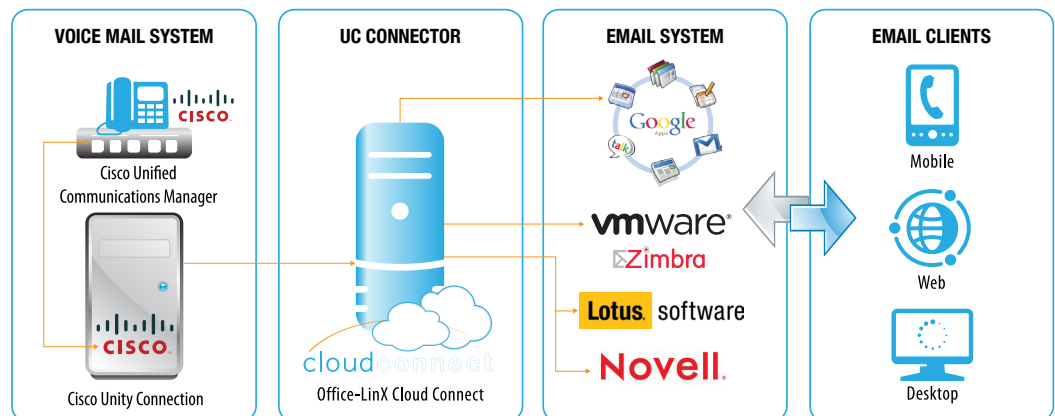

ABOUT ESNATECH

Esnatech is a global leader in cloud-enabled unified communication solutions. The award-winning Office-LinX™ platform provides today's hybrid enterprise with mobility, presence, and messaging applications that significantly improve workforce productivity. Office-LinX is interoperable with any voice, mobile and PBX system and seamlessly connects with cloud-based applications such as Google Apps, VMware Zimbra®, Salesforce.com and Microsoft® Office365. Through a global network of OEM and reseller partners, the Office-LinX solution has been deployed to millions of users and is available in more than 28 countries worldwide. For more information, visit www.esnatech.com.

Esnatech Office-LinX Cloud Connect Edition seamlessly integrates Cisco Unity Connection with cloud-based productivity applications such as Google™ Apps and VMware® Zimbra as well as on-premise solutions such as Lotus Notes and Novell Groupwise to provide organizations with easy to use message handling controls directly within these applications. Office-LinX Cloud Connect Edition utilizes Cisco Jabber to provide full bi-directional synchronization of messages between these applications and Cisco Unity Connection, message waiting indicator (MWI) and read/unread message status synchronization and contact resolution.

Office-LinX Cloud Connect Edition provides:

- **Single inbox:** Voice messages in Cisco Unity Connection are synchronized in Google Gmail, VMware Zimbra, Lotus Notes and Novell Groupwise
- **Convenience:** Users can read, listen, respond, and manage messages right from their native email client on their desktop, web interface or mobile device.
- **Security:** Secure and private message controls are supported in Gmail, Zimbra, Notes and Groupwise.
- **Easy administration:** Automated provisioning of Cisco Unity Connection users with easy to use configuration wizards.

Esnatech enables businesses to integrate **voice**, **mobility** and **presence** with the Cloud and Google® Apps.
